## Introduction

Welcome to Volume 15 of the ICE catalogue, aptly named **ADVICE**. We hope this book will continue to serve as a valuable sales tool to our dealer network. We have stuck to the old format as we still believe it is easy to navigate around, and hopefully puts all the information you may need, in an easy to find format, instantly at your fingertips.

## Sales

This catalogue is up to date the day it is printed, but as you can imagine, information is constantly changing with new products being added, products modified or deleted etc. We will notify you by email of any relevant changes, and we will update our website accordingly. We are constantly adding content, including instructional and operating videos as these become available. If any additional or specific information is required, please contact your area manager, or our head office in Sydney.

## Logistics and Warehousing

We continue to hold stock of the DFS range in not only our Sydney warehouse, but at **SAFE LOGISTICS** in Brisbane and Melbourne. Hopefully, this will give some of our interstate resellers, the opportunity to minimise the freight component when selling these items. In the next year we intend to expand our range in the interstate warehouses to include the **NDA** new range of upright refrigeration.

## Freight on Refrigeration

In order to simplify the freight and reduce the need to call and get a quote for freight before quoting your customer, we have now divided all refrigeration into 4 categories. At the bottom of the column where the product code appears, you will find a freight code **S**, **M**, **L** or **L+**. ICE will provide you a fixed price for each category to all major cities.

**S M L L+**

## Extended Warranty

As we gather more and more information about the reliability of different ranges, we are able to offer increased warranty terms. Our standard warranty is 1 year parts and labour, but some products have a **GOLD STAR WARRANTY**, which is 2 years parts, 1 year labour. We also have a **DOUBLE GOLD STAR WARRANTY**, which is 2 years parts and labour. All items are marked accordingly.

## Dimensions

All dimensions in the catalogue are listed in order of length, depth and height. We make every effort to ensure dimensions are accurate however variations can occur as manufacturers may change design after this catalogue has been printed. For products where fabrication or integration is required, we recommend using the product itself to measure off, or alternatively requesting CAD drawings or confirming dimensions with one of our office staff.

## New Products

We have added a few new exciting products to our range. All these products are marked with a "NEW" symbol. The **STATUS** range of vacuum storage containers and GN compatible lids, is a great option as an environmentally friendly storage solution.

We have launched our new range of **ANVIL** slicers, which have a 2 year warranty.

Our first two shipments of the jaffle maker sold out quicker than expected, these are now back in stock.

**EVERLASTING** have revamped and upgraded their blast chillers and provers. We now offer a 3 piece bakery solution comprising of a **PROVER**, **FRIDGE** and **FREEZER**. All 3 can accommodate either 600mm x 400mm trays, or standard bakery trays.

Blender jugs are a consumable item and are not covered by the warranty on the motor. The manufacturer recommends replacing the jugs every 12 months. However this is a guide only and depends on usage, number of jugs in the system and washing methods. Jugs are dishwasher safe but NOT dishwasher proof. Washing in a dishwasher will significantly reduce the lifespan of the polycarbonate jug. Continuing to use jugs once the bearings are worn can result in damage to the motor which will void the warranty.
