Disclaimer: The descriptions and specifications in this brochure are correct at time of printing. In the interest of product development, Crown Commercial may alter and improve products and specifications. Whilst all care has been made to clearly detail products and benefits, it may be difficult to determine the exact nature of a product from its description in its brochure, Crown Commercial recommends that you discuss your specific needs with your sales representative to ensure the products meet your requirements before purchase.

CROWN VVELCOMETO COMMERCIAL THE FAMILY

Trenton International has acquired the Crown Commercial business from McPhersons Consumer Products. We are excited to add a number of new brands to our comprehensive portfolio, including Luigi Bormioli, Pasabahce, Ocean Glassware, Sant' Andrea, Oneida, Stanley Rogers, Duraceram, Eclipse and Crown Glassware, an iconic brand in the industry.

Crown® has built a long history and established a strong reputation for offering quality glassware at competitive prices. Crown Commercial is a market leader supplying glassware to the hospitality industry and is well-known in the Australian capacity beer glass market. We have a strong presence in other glassware sectors since partnering with Luigi Bormioli, Pasabahce and Ocean Glassware.

Our glassware range includes toughened, crystal glass (lead-free), polycarbonate and decorated.

Trenton International continues to seek ways to improve its product range by creating special features, designs and shapes to service the hospitality industry.

We look forward to working with you into the future to meet your specialised needs.

OUR BRANDS

Crown Glassware has built a long history and established a strong reputation for supplying quality glassware at competitive prices. Our quality and value for money selections are well known in the Australian capacity beer glass market. We also distribute a comprehensive range of stemware and tumblers.

Founded in 1946, Luigi Bormioli is committed to its founding principles of great design, Italian craftsmanship and cutting edge technology to create premium glassware of the highest quality. Luigi Bormioli offer a comprehensive range of styles from classic to contemporary, with a glass for all occasions.

With over 80 years of manufacturing experience, renowned European glassware manufacturer Pasabahce, offers a broad portfolio of tabletop items from traditional stemware and tumblers to glass servingware and premium crystalline products.

Designed for the hospitality market, Lucaris meets the demands of wine lovers and food service professionals alike through the highest levels of quality, functionality and design. The collections are produced with lead-free crystal glass and offer exceptional clarity and brilliance. The glass is extra thin, yet very strong and durable. As part of the Ocean glassware group, Lucaris is one of Asia's leading glass brands.

Ocean Glassware is one of the world's leading glassware manufacturers, providing an extensive range of quality glassware. For more than two decades, Ocean Glassware has designed and manufactured to the highest level of functionality and quality. From soda-lime to crystalline glassware under the Lucaris brand, Ocean Glassware can meet every venues requirements.

Designed for durability, Duraceram is a fully vitrified range of commercial tableware. Made from a hard glazed non-porous porcelain, for maximum resistance against everyday marks and scratches, Duraceram features three ranges of dinnerware which are well complemented by a broad portfolio of accessories.

Established in 1990, Sant' Andrea is a European brand with a prestigious heritage. Offering distinctive shapes and exceptional craftsmanship, the product range unites modern themes with timeless classic design. Sant' Andrea can be found within many celebrated 5-Star establishments all over the world, bringing a luxurious look and impressive feel to the table through premium designs.

Oneida cutlery has been gracing the tables of fine dining establishments for more than 100 years. Oneida's strong reputation reflects the innovative design and unique style that each of it's designs holds. Oneida's quality standards have remained the same over all these years, bringing the highest quality products made from the finest materials.

Established in 1930, Stanley Rogers has thrived through generations, providing traditional quality and classic style. With a heritage of over 80 years, the superb craftsmanship and expertise expressed in Stanley Rogers cutlery have made it an iconic Australian brand, proudly found in many venues today. Stanley Rogers brings understated style to your dining table with a selection of best selling classic cutlery designs.

THE HISTORY OF OUR BEER GLASSES

Crown Glassware was the first company in Australia to develop glassware for the hospitality industry.

More than 80 years ago Crown Crystal Glass in consultation with local hotels developed the first draught beer glass shapes which were known in the industry as Conical and Washington.

Some 40 years later the company started developing further shapes such as Pilsners and straight sided beverage glasses.

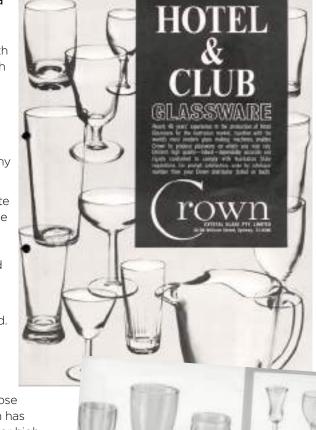

During the 1980's Crown Glassware introduced many more shapes and capacities for the discerning market along with many general glassware and stemware designs.

A push for legislated weights and measured glassware in the late 80's saw Crown Glassware become the first company to provide a correctly specified glassware range to the industry, which later became the industry standard. Crown were also the first company to introduce the embossing of weights and measured capacities on the base of glasses.

In recent years Crown has been at the forefront of new designs for the presentation of beer such as Brasserie, Keller and Oxford.

Crown Glassware was also the first glass distributor to supply a Nucleated glass for the presentation of draught beer with "Headmaster" becoming the industry leader.

Through this long history Crown Glassware has always had a close association and consultation with the hospitality industry which has enabled Crown Glassware to meet industry standards and deliver high quality products with value for money.

DID YOU KNOW...

- » Beer started selling in bottles starting 1850 and in cans starting 1935.
- » In the 1600's thermometers used to be filled with brandy instead of mercury.
- » The world's oldest known recipe is for beer.

TOUGHENED GLASSWARE Australian Market Relevance

Crown Commercial continue to offer a variety of toughened glassware options for a proactive approach to safety.

Toughened glassware will break under strong shock, but it will resist breaking into large pieces that could cause severe injury.

Legislative requirements now force particular venues to use toughened glass where glassing incidents have occurred. Crown Commercial's toughened range assists you being able to service these venues effectively.

Features & benefits

- 4-6 times stronger than annealed (standard) glassware.
- ► Reduces costs due to less breakages.
- ▶ 285ml & 425ml Weights and Measures approved.
- ► Constant Trade Magazine advertising and editorial exposure.
- ► Crowntuff is available in beer glasses, tumblers & stemware.

Glassware

F. Scott Fitzgerald described alcohol as "the rose coloured glasses of life". We like to think of our beautiful range of glassware in the same way.

With a range of glassware from soda-lime tumblers, to toughened beer glasses, to high end crystalline – we can provide a suitable range for every type of venue from a local pub, round the corner cafe to 5 star hotels. With various shapes and sizes to choose from you can ensure that you have the glassware to complement the food or beverage you are serving.

PRINTED BRAND OPTIONS

Crown Commercial, together with our factories and decorating partners continue to be a market leader in supplying printed or decorated glassware and ceramic products for the promotional or beverage industry.

If you want your brand or logo to be printed onto a glass, mug or plate, we can facilitate this request and ensure that you receive a high quality product at a competitive rate.

A fantastic marketing tool, we can handle or process jobs both large and small to cater to a particular event.

We have supplied some of the worlds largest beverage companies with their branded glass working within their specifications and timelines and can assist in coming up with concepts to make sure your product/brand/logo stands out from the rest.

Please contact your local representative or call customer service on 02 8571 9988 to be put through to the correct territory representative.

Cutlery

Beautiful cutlery adds the defining touch to any table setting. The right knives, forks and spoons frame the crockery and lead the eye to the food. We have stylish cutlery made from commercial quality stainless steel to suit any budget.

Stanley Rogers has stood as a mark of excellence since 1930, setting tables with high quality and beautifully created cutlery pieces that have been crafted from 18/10 stainless steel.

Sant' Andrea has a rich Italian heritage. The epitome of opulence and quality, each pattern is made with heavy gauge stainless steel and finished to the highest standards, each piece is supported with a lifetime guarantee.

Wiltshire is an iconic Australian brand. Well established in kitchenware and household products, it has been synonymous with quality, reliability and value-for-money for over 65 years.

Dinnerware

Two commercial grade dinnerware brands providing classic patterns with durability and appeal for your venue.

Duraceram is the definitive dinnerware range for catering and hospitality. Strong and solid, it is very popular with cafés, restaurants and bistros. It's clean, uncluttered style suits all occasions from small, casual events to fully catered functions.

Eclipse's fluid shape and ultra white body create a superb contrast for culinary presentations. This wide-rim, chip resistant quality porcelain provides generous serving space, while it's asymmetric, embossed design provides a subtle decorative element for precise food plating.

Glossary of Symbols

Crown Commercial is an authorised supplier under the National Measurement Institutes Legislation that covers the service of draught beer.

SIGNIFIES FULLY TOUGHENED

'Toughened' glassware involves heating the glass to very high temperatures then cooling it rapidly. This process renders the glass both shock and heat resistant.

Features and benefits

- » More resistant to strong shocks, breakages and scratches
- » Resistant to sudden heat changes and can be easily used in microwaves
- » Excellent lifespan by means of durability
- » Resists breaking into large pieces that could cause severe injury
- » Highly resistant to the effects of soapy water, acids and dishwasher use
- » Reduces glassware replacement costs.

Rim 'toughened' glassware involves heating the rim to very high temperatures then cooling it rapidly. This process renders the rim both shock and heat resistant.

SIGNIFIES CRYSTAL GLASS (LEAD-FREE)

For your more discerning customers, we now have a wider offer of Crystal glass (lead-free) drinkware. The terms 'lead' and 'crystal' seem to be inextricably linked, with the clarity and resonance for which high grade crystal is renowned, attributed solely to its lead content. But now these qualities can be found in lead-free glassware.

A group of Italian scientists decided to tackle the manufacturing process without using lead, a much-maligned substance that has, however, proved safe in modern crystal products. The research team hit upon a recipe using fine sand, soda ash, lime and assorted minerals including calcium sulphate and aluminium hydrate as well as a number of secret ingredients. They heated these substances to a certain temperature for a specific period of time to produce a glass that rivals lead crystal in a number of ways.

- "Crystal glass (lead-free)" combines the clarity or luminosity, normally associated with lead crystal with the ability to be blown in finedrawn shapes
- » It also has the exquisite clear and resonant ring of fine crystal
- » Unlike lead crystal products, crystal glass (lead-free) is dishwasher safe

This development has created a third category in the market place, positioning 'crystal glass (lead-free)' in the middle to upper end with soda lime glass at the bottom and lead crystal at the top.

Luigi Bormioli bowls and stems are air blown in one piece and the emphasis is on providing a fine, high quality product without the cost of lead crystal.

Caring for your glassware

The handling of your glassware is extremely important.

To ensure your glassware's longevity, Crown Glassware has developed a care sheet designed to improve the handling of your glassware.

Use a scoop - never scoop ice with glass.

Avoid glass contact with beer taps.

Never pick up with glass to glass contact.

Stack glasses into divider racks.

Have a back up supply of glasses for rush periods.

Never stack glasses (except specifically stackable glasses.)

MECHANICAL IMPACT

This refers to contact with other objects such as beer taps, glasses or cutlery. The result can be costly in breakages, chips and cracks and can cause minor, invisible abrasions which will weaken the glass, making them far more susceptible to breakage due to impact or thermal shock.

Crown Glassware recommends removing any damaged products from service.

THERMAL SHOCK

Due to the fact that the glass retains temperature, any sudden change can cause breakage. An example is putting glasses that have had ice in them directly into the dishwasher. The sudden change in temperature will cause breakages.

Similarly, glasses from a hot dishwasher should never be filled immediately with ice or cold water. They should be allowed to return to room temperature before being used.
