ABOUT ENAMELWARE

Enamelware is solid stuff. Made by fusing porcelain onto heavy-gauge steel, it is durable, smooth, chemically-resistant and it can assume brilliant, long-lasting colours. Dishwasher-safe and oven-safe up to 530°F/270°C, it can be used on gas and electric hobs and won't burn. If you drop it, it may chip but it won't break (and, in our opinion, that just adds to its character).

CREDITS

The new Falcon range is a collaboration between Kiwi & Pom, Morse Studio & Peter Hames. Food photography by Joff Lee and Sam Stowell.
