MULTICUT PACK OF 16 DISCS

Raw salad vegetables of every shape and size.

As healthy food guidelines evolve, school canteen cooks are being asked to provide more raw vegetables and salads. The National Healthy School Canteens Guidelines issued by the Department of Health in 2010 provide national guidance and training to help canteen managers across Australia to make healthier food and drink choices for school canteens. Fresh, in season fruit and vegetables are categorised as GREEN and should be the first choice on a school canteen menu.

The need to provide fresh fruit and vegetables provides canteen cooks with the perfect opportunity to offer new cuts and presentations for all their dishes:
