

TOMKIN[®]

THE MARK OF HOSPITALITY

**CATALOGUE
VOLUME 2.1**

WELCOME TO THE TOMKIN FAMILY TABLE

As a team, we are motivated to be at the service of the hospitality. We have enjoyed the recent market challenges together. The resilience we have seen in Australia and within our team have led us where we are now, when we look to a brighter future for our sector and for our company and we are actively contributing to build this future.

I am extremely proud to work for a company which has been one of the Australian pioneers in the hospitality sector. Our objective is to continue to grow the company in Australia and at the same time to take Tomkin Australian brands, product and values at the world level.

Alex Dicu
CEO

OUR STORY

Since 1975, Tomkin has been bringing tastemakers and discerning hospitality professionals a selection of the finest front-of-house and back-of-house hospitality ware.

We believe food and beverage service is an art, and we strive to provide a canvas for chefs and hospitality specialists to bring their vision to life. Which is why all Tomkin products are benchmarked for value, craft and design that can endure the rigours of continual daily use in a commercial food service environment, backed up by comprehensive product guarantees.

Our longstanding reputation is built on not just the calibre of the brands we create and represent, but also on the solid partnerships and enduring relationships we have developed with select suppliers, factories and warehouses to make sure our customers always get the reliability in supply and service delivery we are famous for. For the finest commercial hospitality ware that excels in value, aesthetic appeal and longevity, **Tomkin is the partner you can always rely on.**

SUSTAINABILITY KEY PILLARS

We are dedicated to becoming a champion for change in our industry, and we want to be accountable to our commitments while empowering you to make better product choices.

Using recyclable and biodegradable materials that have a lower environmental impact is one of our main strategies to reduce our overall footprint on the planet.

We're excited to share our journey to a more sustainable company with you.

01 Responsible Packaging

Paper Packaging Tape

Void Fillers

Reduction of plastic in packaging

Recycled board in packaging

Biodegradable vegetable inks

02 Environment

Along with using more sustainable materials in our products, we have developed several strategies across our business to reduce our overall environmental footprint.

We have switched to more environmentally responsible products and processes around our office and warehouse.

Look out for more on our goals in this space as we continue to develop our environmental strategy.

We are on a journey to reduce our carbon footprint in several ways across our business:

- We have implemented a cloud strategy for our staff. We have reduced our power consumption and carbon footprint as we don't require physical servers.
- The paper we use within our office printers and for our printed catalogue are FSC certified and are made from 70% recyclable paper.
- We have been undertaking system improvements over the past few years. Our new in house system is cloud base which is TBA% more energy efficient than our previous platform.
- We are now moving towards 100% plastic-free retail packaging to be more conscientious about wastage from our business to our customers.

This catalogue has been printed onto a paper stock that is manufactured from timber sourced from sustainable resources.

Both our printer and paper manufacturer is accredited to the highest international environmental standards.

The Australian printing manufacturer we have used is powered by solar panels and uses vegetable based inks that are biodegradable. We have made all conscious efforts to reduce our carbon footprint to produce this catalogue and to keep our manufacturing in Australia.

SUSTAINABILITY KEY PILLARS

03 Ethical Supply

Ensuring our brand operates ethically in regards to our supply chain is integral to our conscious strategy.

We have taken practical steps to adhere to current global standards and continue to improve this aspect of our business.

Our goal is to drive continuous improvement within our supply chain and help improve the workers' environments that make our products.

Discrimination in any form, including based on gender, is not tolerated.

Tomkin is committed to addressing any gender inequality in our supply chain. Tomkin prohibits the use of child, forced or bonded labour under Young Workers and Child Labour Policy and Forced Labour Policy.

04 Community

We are passionate about creating positive change through our charity partnerships and community initiatives. Tomkin and our employees are proud to support a range of diverse organisations.

05 Diversity and Inclusion

We are committed to evolving our Diversity, Equity and Inclusion (DEI) practices and cultivating an environment of inclusiveness and belonging which values diversity and enables individuals to thrive.

We recognise that each individual possesses a rich, diverse set of perspectives, cultural experiences, and values. We acknowledge the importance of harnessing this diversity to promote a cohesive and synergistic workforce.

VITRIFIED PORCELAIN

Made of clay that's malleable and great for forming detailed shapes. Created in a two firing process where it becomes vitrified during the second firing, making porcelain an extremely durable dinnerware option that is dishwasher, microwave, and oven safe.

SCRATCH RESISTANT

Guaranteed to look new time and again, our scratch resistance glaze withstands abrasion caused by cutlery, stacking, and industrial dishwasher use. Its long lasting glaze allows you to showcase all food styles for many years of service.

CHIP WARRANTY

Ideally suited to the hospitality industry, our chip resistant edge is durable without sacrificing the lightweight design or style. Hard wearing and durable, our chip resistant guarantee cover chipping only, not breakages for the piece's lifetime.

VITRIFIED PORCELAIN

Made of clay that's malleable and great for forming detailed shapes. Created in a two firing process where it becomes vitrified during the second firing, making porcelain an extremely durable dinnerware option that is dishwasher, microwave, and oven safe.

DUAL GLAZE

Adding depth of colour and texture to each piece, our dual glaze brings authenticity and variance. The initial glaze seals the porcelain while the second glaze adds a layer of sheen or matte. The dual glaze delivers long-lasting luster or satin finish.

DESIGNED TO MIX AND MATCH

Stylish and functional, this collection had been skillfully created to coordinate beautifully with other pieces in the ranges. Add a layered effect by mixing and matching with other ranges to create a unique combination.

SERAX

INSPIRED BY THE COLOURS OF THE EARTH, SKY AND OCEANS, DELIVERS AN ORGANIC MOOD TO YOUR TABLE. THE IMPRESSIVE ORGANIC SHAPES AND **LUXURIOUS FINISH** HAVE AN INDIVIDUAL VARIANCE THAT GIVES AN **ECLECTIC LOOK**.

COMMERCIAL STONEWARE

Durable and practical, our Commercial Stoneware is high fired for maximum strength and endurance. Able to withstand the rigours of a professional kitchen, our robust stoneware is microwave and dishwasher safe.

REACTIVE GLAZE

Our reactive glaze brings authenticity to each piece. Individually crafted to make every look a statement on its own, creating a unique look every time. The finish of each piece is guaranteed to withstand everyday use in a commercial environment.

HAND GLAZE

Unique and handmade. Each piece is hand-dipped into the glaze from top to bottom, leaving a single band or natural porcelain around the rim and base of each piece. Variations from piece to piece evoking individual character and charm.

STARK AND MOODY, TABLEKRAFT BLACK **MAKES A STATEMENT**. OFFERING A **STUNNING BACKGROUND** FOR YOUR MOST ORIGINAL DISHES, THIS RANGE PROVIDES ENDLESS POSSIBILITIES.

VITRIFIED PORCELAIN

Made of clay that's malleable and great for forming detailed shapes. Created in a two firing process where it becomes vitrified during the second firing, making porcelain an extremely durable dinnerware option that is dishwasher, microwave, and oven safe.

ROLLED EDGE

Designed to complement, the rolled-edge design is perfect for modern dining experiences. Stunning and contemporary, this design style showcases individuality and elegance.

SCRATCH RESISTANT

Guaranteed to look new time and again, our scratch resistance glaze withstands abrasion caused by cutlery, stacking, and industrial dishwasher use. Its long lasting glaze allows you to showcase all food styles for many years of service.

VITRIFIED PORCELAIN

Made of clay that's malleable and great for forming detailed shapes. Created in a two firing process where it becomes vitrified during the second firing, making porcelain an extremely durable dinnerware option that is dishwasher, microwave, and oven safe.

HAND GLAZE

Unique and handmade. Each piece is hand-dipped into the glaze from top to bottom, leaving a single band or natural porcelain around the rim and base of each piece. Variations from piece to piece evoking individual character and charm.

DUAL GLAZE

Adding depth of colour and texture to each piece, our dual glaze brings authenticity and variance. The initial glaze seals the porcelain while the second glaze adds a layer of sheen or matte. The dual glaze delivers long-lasting luster or satin finish.

UNIVERSAL AND TRADITIONAL. OUR RANGE OF MINIATURES ARE PERFECT LITTLE ADDITIONS FOR **SERVING CONDIMENTS, SAUCES, OR DESSERTS.** AVAILABLE IN VARIOUS SHAPES AND SIZES, OUR MINIATURES **ADD A LITTLE CHARISMA AND CHARM.**

VITRIFIED PORCELAIN

Made of clay that's malleable and great for forming detailed shapes. Created in a two firing process where it becomes vitrified during the second firing, making porcelain an extremely durable dinnerware option that is dishwasher, microwave, and oven safe.

SCRATCH RESISTANT

Guaranteed to look new time and again, our scratch resistance glaze withstands abrasion caused by cutlery, stacking, and industrial dishwasher use. Its long lasting glaze allows you to showcase all food styles for many years of service.

DESIGNED TO MIX AND MATCH

Stylish and functional, this collection had been skillfully created to coordinate beautifully with other pieces in the ranges. Add a layered effect by mixing and matching with other ranges to create a unique combination.

MODERN WITH SOFT DELICATE CURVES, BORMIOLI ROCCO DINNERWARE TIMELESS DESIGN MAKES IT **PERFECT FOR MIXING WITH OTHER RANGES**. VERSATILE AND RESISTANT, THIS CLASSIC RANGE IS **SUITABLE FOR ANY DINING EXPERIENCE**.

LEAD FREE CRYSTAL GLASS

Star Glass does not alter the colour, smell or taste of wine and spirits.

Manufacturing features:

- Purity of raw materials
- Clarity and Brightness of the finished products
- Premium recyclable materials

LASER CUTTING

Consistency is key when producing uniform and linear rims and is achieved by using a laser beam (rim cutting). This technology improves the quality of the products and is specifically designed to meet the needs of professionals.

REDUCED THICKNESS

Glassware with thin rims present a fine delivery to the palette, allowing all aromas and flavors to be appreciated.

VITRIFIED PORCELAIN

Made of clay that's malleable and great for forming detailed shapes. Created in a two firing process where it becomes vitrified during the second firing, making porcelain an extremely durable dinnerware option that is dishwasher, microwave, and oven safe.

DUST PRESS COLLECTION

Extraordinarily hard and dense, this Dust Press collection is created using a dry powder compacted to produce a sturdy and solid substance. Using age-old processes, Dust-Press porcelain is much harder than ordinary porcelain.

CLASSIC COLOUR

Our Classic Colour dinnerware is the perfect combination of elegance and grace, enriched with a subtle silky off-white hue. Its slight off-white tone sits comfortably against other Classic Colour collections.
