

INSTANT BOILING WATER AND
QUALITY CATERING EQUIPMENT

birko

About Us

Proudly Australian for over 50 Years

Birko Electrics started life just prior to World War II, making soldering irons for local markets. During the war, a need was identified for some form of portable food and drink heating vessel.

Birko designed and produced the Food and Drink Heater, an electric jug with a concealed element so that the food as well as liquid, could be heated.

After the war, Birko continued manufacturing Food and Drink Heaters, selling them through major department stores. An Electric Kettle was then added to the range of products, followed by a Hot Water Urn for commercial and industrial usage.

Birko expanded further, making industrial elements for washing machines and air conditioners. The element plant developed elements for Birko's domestic appliance market, which further improved the quality and efficiency of its products.

Up to this point, all Birko products had been made from copper and then chrome plated. Copper was replaced by stainless steel in Hot Water Urns for a more reliable, hard wearing and cleaner product which was suitable for commercial applications such as hospitals, factories and Government departments.

Birko's next move was to develop a distribution network throughout Australia, and it soon began to export its products.

A takeover of Westgate Manufacturing in 1988, and Sarena Industries in 1989 allowed expansion of the product range to include Food and Pie Warmers, Gas Urns, and some commercial catering equipment.

Now in the 21st century, Birko is going from strength to strength. It has expanded its product range even further with its TempoTronic.

Birko continues to expand and has recently launched a brand new range of commercial catering appliances. It is now proudly represented in New Zealand by Zenith Heaters - part of the Zip Industries group.

Birko Tempo Tronic

Over-sink Boiling Water

Boiling water when you need it for kitchens large or small.

High quality & low maintenance – Australian designed and manufactured from 444 grade stainless steel with built in safety over temperature cut out and a polished stainless steel outer case. Comprehensive 12 month warranty.

Stainless steel Twin-Tank technology – utilises the steam generated from boiling water to pre heat the incoming cold water, improving recovery and reducing energy consumption. Optional timer available on 3 litre, 5 litre, 7.5 litre models.

Suits your needs – All models feature durable polished stainless steel case and an optional timer is available.

Birko Under-sink Chilled Water

Chilled filtered water at any kitchen sink.

Now you can have chilled filtered water at a fraction of the cost of bottled water.

Instant chilled filtered water at your fingertips.

Cost effective solution to buying and storing bottled water.

Delivers refreshingly chilled water between 5 degrees and 10 degrees.

New Birko 0.2-micron filters reduce chlorine taste and odour and filter out particles more than one fifth of a micron in size – that's one five-thousandth (1/5000th) of a millimetre – twenty five times finer than earlier 5.0 micron filtration, designed to filter out both Cryptosporidium and Giardia cysts and other impurities, for crystal-clear great-tasting water and healthier drinking.

Chiller and filter system stored out-of-sight under bench top.

Compressor Isolation Switch for winter use.

Replacement Filter Cartridges

Birko Sous Vide

18 Litre and 38 Litre water bath

Healthy, easy and accurate cooking

For great tasting precise cooking, the Birko Sous Vide is the answer.

Vacuum sealed food is slow cooked at a precise temperature to provide perfectly cooked food. It is virtually impossible to under or over cook your food. The Birko Sous Vide SV18 Economy Model with its “actual” and “set” temperature readings, and temperature range from 30°C to 98°C, with adjustments of 0.5°C for accurate cooking, also includes a single timer.

The SV38 is top of the range and includes 5 separate timers and a rack system for separating the portions, making it well suited for continuous service. SV38 also features an agitator for water circulation and accurate temperature control throughout the bath from 20°C to 99°C, with adjustments of 0.1°C for precise cooking. Visual inspections of the cooking portions are made easy with the safety glass hinged lid.

Both models feature minimum and maximum water level sensors, and can be easily drained via the front of the unit.

* Not recommended for high moisture content foods. Tomatoes, lettuce, vegetables and cheese, etc.

Birko Soup Kettle 9 Litre

A sturdy insulated kettle for storing and serving hot soup.

If you need to serve hot soup on demand, this safe, sturdy and stylish soup kettle has everything you need at exceptional value.

Built to last – Aluminium construction with stainless steel heating element and water tank.

Stable – a robust pressed powder coated body with safe lifting handles and rubber feet for maximum stability.

Safe – a hinged lid to minimise spills.

Wet style operation – Side handles for lifting, simply fill the internal cavity with water and the soup kettle heats the water to heat the soup via the inner bowl efficiently and evenly.

Temperature controlled – By setting the dial to the heat level that you require, the simmerstat will maintain your soup at an ideal serving temperature.

Soup Kettle 9 Litre

Part Number	1030601
Capacity	9 Litres
Power	400-476W
Voltage	220-240V
Empty Weight	4.8 Kg
Dimensions (mm)	Dia 345 H 380

Birko Rice Cooker

Perfect cooked rice every time!

This high quality cooker is durable, low maintenance and great value!

- Thermostatically controlled dual temperature.
- Dual power rating for cook and keep warm – 1950 watts main power, 85 watts low power.

Birko Filter Cartridges

Genuine Birko replacement filter cartridges.

New Birko 0.2-micron filters reduce chlorine taste and odour and filter out particles more than one fifth of a micron in size – that's one five-thousandth (1/5000th) of a millimetre – twenty five times finer than earlier 5.0 micron filtration, designed to filter out both Cryptosporidium and Giardia cysts and other impurities, for crystal-clear great-tasting water and healthier drinking.

This is the most advanced and most practical water filtration system available anywhere today, developed to meet our exacting specifications by the world leader in water filter technology.

Birko 0.2-micron filter cartridges are hygienically encased for fast and easy filter cartridge replacements.
